臺北市立動物園_111_年度動物認養保育計畫成果報告

日期:112年2月28日

中文摘要:

臺北市立動物園於 91 年設立動物認養專戶,以推廣野生動物保育為目標,透過動物認養活動凝聚社會大眾資源,落實野生動物保育研究及教育工作。為促使更多民眾參與並關注動物認養,動物認養小組將本園長期致力於野生動物保育的成果、專業經驗與創意思維等,設計轉化為動物認養活動專屬之智慧財產。自 104 年起,推出小額捐款認養活動,以保育文宣品作為捐款贈品進行推廣,結合網路社群宣傳,激發大眾對野生動物保育之認同;105 年開始量產製作保育文宣品,以動物繡片系列為主,結合動物園內焦點物種及活動主題持續推出各種款式,於動物園粉絲間累積一定知名度與關注;109 年順應網路社群粉絲需求,初次運用網路平台進行小額捐款認養活動,大幅拓展活動觸及對象。

110年開始以年度整體規劃之計畫進行動物認養保育文宣品開發及推廣,增加製作經費額度及生產規模,擴大保育文宣品類型與行銷層面,並以主題性的方式規劃文宣品之製作,強化其內含的野生動物保育意涵,達到推廣動物保育之效果。111年延續前一年度的計畫模式,搭配動物園焦點物種主題、動物保育日及各大節慶活動,共辦理8場次實體攤位活動及2場次線上專案活動,並製作9種不同類型的保育文宣品,總共支出232,094元,獲得658,571元的動物認養保育金,達到426,477元之收益(收入-支出)。

伴隨疫情趨緩,今年實體攤位活動較去年增加 4 場次,以現有的保育文宣品配合活動主題, 策劃不同的限定組合,並嘗試運用多種趣味互動遊戲增添攤位豐富度,如針對動物園主要的親 子客群,推出「戳戳樂」、「扭蛋機」等容易吸引兒童注意力的活動,延長遊客聚集在攤位周 圍的時間,以達成集客效果,並有效吸引路過遊客前來攤位了解動物認養,在實體攤位透過工 作人員面對面的推廣,及時傳遞保育教育訊息,並隨時說明動物認養活動細節。

由於現場活動場次增加,壓縮了執行線上認養專案活動的作業時間,今年僅辦理了2場次的線上專案,較去年減少1場。不過在這2場活動中,我們積極嘗試開發新的文宣品種類,包含漁夫帽、刺繡鑰匙圈、手機支架、布掛曆等等,並透過活動成效分析,了解哪些類型文宣品對捐款人較有吸引力,有助於精進未來開發多樣化保育文宣品的方向,並且首次嘗試開放不限固定金額的捐款方式,透過累績滿額贈的方式,鼓勵民眾自由樂捐,開發「純捐款」對象,加強推廣野生動物保育理念,提升大眾對保育之認同,並增加動物認養專戶捐款收入。

Abstract:

The Animal Adoption Programs of Taipei Zoo was founded in 2002 with the goal of promoting wildlife conservation. Through the animal adoption activities, we collect public resources and donations to execute conservation research and education. In order to attract more people's attention, we transform the achievement, professional experience and creative thinking about wildlife conservation by Taipei Zoo into intellectual property.

Since 2015, we started a kind of animal adoption activity by using promotional products of conservation as gifts for people who donate to the Animal Adoption Programs. Accompanied by publicity and marketing, it raises the public awareness and support of wildlife conservation. In 2016, we began to mass produce the promotional products, and created the animal embroidered pins which have been the main series in our activities. We designed various types of pins based on the key species or different events in the zoo. Over the years, it has gained increasing popularity among the zoo fans. In 2020, in response to the expectations of the fans in the online community, we held an online activity on social networking site for the first time and receiving critical acclaim.

In 2021, we develop promotional products of animal adoption and conservation with a well-planning and long-term program. It increases the amount of productive expenses and quantities of the promotional products and enhances publicity on a larger scale. Additionally, we refine the packaging design of the promotional products to enrich the contents about wildlife conservation and make the products much catchier.

This year (2022), continuation of last year's program. Inspired by the species, events and conservation festivals in the zoo, we completed 8 activities held in Taipei Zoo and 2 activities online. Furthermore, we created 9 kinds of promotional products all year round. In this program, the total expenses are NT\$232,094, and the amount of donations to the Animal Adoption Programs is NT\$658,571. Therefore, we get the net income of NT\$426,477. Effectively increases the income of the Animal Adoption Programs.

With the COVID-19 pandemic slowing down, the number of activities we held in Taipei Zoo increased by 4 this year compared to last year. Using the original promotional products to match the theme of the events, and planning different limited packages. We also try some fun and interactive ways such as "poking" and "egg twisting machines" to the target audience (parent-child) in zoo. Try to attract children's attention, and prolong the time visitors gather around the activity area. Effectively attract passing visitors to learn about the Animal Adoption Programs.

Due to the increase in the number of on-site activities, the operation time for the online activities has been reduced. This year, only 2 online activities were held, which is 1 less than last year. However, in these 2 online activities, we tried to develop new types of promotional products, including fisherman's hats, key rings, cell phone holders, fabric calendars, etc. We analyzed the effectiveness of the campaigns to understand which items were more attractive to donors. It helped us understand how to develop diversified promotional products in better way in the future.

This year, for the first time, the online activity tries an unlimited amount of donations, and encourages people to donate freely through a cumulative full-value gift, so as to develop "pure donation" targets. Then, promoting wildlife conservation, raising the public awareness of conservation, and increasing the donations to the Animal Adoption Programs.
