

Project name			Project content
Operating plan	Task plan	Subproject	
	Engineering Administration	(I)Project tendering and contract performance management and so on	To contract out the projects and conduct contract-fulfillment management, engineering quality management, engineering planning and design, land management, electrical and mechanical engineering design, road excavation management, road management and maintenance, and building planning and design.
		(II)Roadway /bridge maintenance	<ol style="list-style-type: none"> <li>1. Citywide road maintenance. <ol style="list-style-type: none"> <li>(1) Filling up potholes on asphalt concrete pavement, and paving of asphalt pavement.</li> <li>(2) Renovation, improvement of the pavement of sidewalk.</li> <li>(3) Update road and maintain street gutter for the roadway eight meters and below.</li> </ol> </li> <li>2. Maintenance of auxiliary roadway facilities <ol style="list-style-type: none"> <li>(1) Maintenance of medians, barriers and road facilities.</li> <li>(2) Citywide side ditch cover repair and maintenance.</li> </ol> </li> <li>3. Carry out integrated disaster prevention and rescue business at this bureau, cooperate with the Ministry of National Defense to conduct civil defense and military operation drills and training, and execute transfer training of civil defense staff.</li> <li>4. Maintain bridges, footbridges, elevated roads, underpasses, vehicular underpasses, river bridges and tunnels all over the city, and maintain and improve the ventilation equipment of vehicular underpasses and tunnels.</li> <li>5. Various construction vehicle and machinery/equipment maintenance. <ol style="list-style-type: none"> <li>(1) Establishment of management cards of vehicles, machines and equipment for regular inspection.</li> <li>(2) Stocking of spare parts for use by the emergency repair personnel.</li> <li>(3) Maintain all types of vehicles and machinery, such as dump truck, aerial work vehicle, road repair truck, boom engineering truck, excavator, shovel, bulldozer, stacker and so on.</li> </ol> </li> </ol>
Roadway /bridge project	Roadway/ bridge project	Roadway/ bridge project	Responsible for 48 projects, including the National Biotechnology Research Park's External Roads Construction.
Common duct fund	Common duct operations	Common duct operations	<ol style="list-style-type: none"> <li>1. Common duct operating fees.</li> <li>2. The common duct management fee and overheads.</li> <li>3. Taipei City Joint Pipeline Management and Monitoring System Software and Hardware Integration Project.</li> <li>4. Construction of the common pipelines and wiring of the eastward extension of Xinyi Line and improvement of related roads and ancillary facilities.</li> <li>5. Commissioned design technical service fee for the construction of related roads and ancillary facilities improvement works for the northern section of the Ring Line and the southern common pipelines and wiring.</li> <li>6. The Fuguo Road common duct project (phase 2)</li> </ol>
Compensation for land use	Compensation for public land	Compensation fee	Compensation for land used for public works, ground objects and other projects ( Preparation of compensation fees)
The first reserve fund	The first reserve fund	The first reserve fund	prepared in accordance with Article 22 of the Budget Act
