| Project name | | | Project content |
|---|---|---|---|
| Operating plan | Task plan | Subproject | |
| | Engineering Administration | (I)Project tendering and contract performance management and so on | To contract out the projects and conduct contract-fulfillment management, engineering quality management, engineering planning and design, land management, electrical and mechanical engineering design, road excavation management, road management and maintenance, and building planning and design. |
| | | (II)Roadway /bridge maintenance | 1. Citywide road maintenance.<br>(1) Pothole patching and full milling and resurfacing of asphalt concrete pavement.<br>(2) Renovation, improvement of the pavement of sidewalk.<br>2. Maintenance of auxiliary roadway facilities：Maintenance of related road ancillary facilities, including median islands, guardrails, and trench covers.<br>3. Carry out integrated disaster prevention and rescue business at this bureau, cooperate with the Ministry of National Defense to conduct civil defense and military operation drills and training, and execute transfer training of civil defense staff.<br>4. Conduct inspections, maintenance, and improvements of all bridges, pedestrian overpasses, elevated roads, pedestrian underpasses, vehicular underpasses, river-crossing bridges, and tunnels throughout the city, as well as maintenance of ventilation equipment in vehicular underpasses and tunnels.<br>5. Various construction vehicle and machinery/equipment maintenance.<br>(1) Establishment of management cards of vehicles, machines and equipment for regular inspection.<br>(2) Stocking of spare parts for use by the emergency repair personnel.<br>(3) Maintain all types of vehicles and machinery, such as dump truck, aerial work vehicle, road repair truck, boom engineering truck, excavator, shovel, bulldozer, stacker and so on. |

| Roadway /bridge project | Roadway/ bridge project | Roadway/ bridge project | 1. Continued implementation of the FY 2025 Sidewalk Engineering Planning and Design Project.<br>2. Continued implementation of FY 2025 Technical Services for Commissioned Construction Supervision.<br>3. Continued implementation of the FY 2025 Road Engineering Planning and Design Project.<br>4. Continued implementation of the FY 2025 Taipei City New Construction Office Project for Inspection, Monitoring, and Ground Anchor Testing of Artificial Hillside Slopes under Its Jurisdiction.<br>5. Continued implementation of the FY 2025 Road Improvement and Maintenance Project.<br>6. Continued implementation of the FY 2025 Sidewalk Improvement Project.<br>7. Continued implementation of the FY 2025 Emergency Disaster Repair Project.<br>8. Continued implementation of the FY 2025 Special Project for Pavement and Ancillary Facility Renewal.<br>9. Continued implementation of the FY 2024-2025 Bicycle Path Construction and People Oriented Environment Improvement Project.<br>10. FY 2026 Sidewalk Engineering Planning and Design Project.<br>11. FY 2026 Technical Services for Commissioned Construction Supervision.<br>12. FY 2026 Road Engineering Planning and Design Project.<br>13. FY 2026 Taipei City New Construction Office Project for Inspection, Monitoring, and Ground Anchor Testing of Artificial Hillside Slopes under Its Jurisdiction.<br>14. FY 2026 Road Improvement and Maintenance Project.<br>15. FY 2026 Sidewalk Improvement Project.<br>16. FY 2026 Emergency Disaster Repair Project.<br>17. FY 2026 Special Project for Pavement and Ancillary Facility Renewal.<br>18. Matching funds for Phase 2 of the Fuguo Road Common Duct Project.<br>19. Matching funds for the Common Duct Project in the Taipei City section of the Taipei Metro Wanda-Zhonghe-Shulin Line, Phase 1, Phase 4.<br>20. Road engineering compensation for the Urban Renewal Project and Rights Transformation Plan for eight land parcels, including Parcel No. 480, Subsection 1, Zhilan Section, Shilin District, Taipei City.<br>21. Road engineering compensation for the Urban Renewal Project and Proposed Rights Transformation Plan for sixteen land parcels, including Parcel No. 528, Subsection 2, Nangang Section, Nangang District, Taipei City.<br>22. Technical services for commissioned planning and design of an entrance ramp from Zhoumei Expressway to Daye Road.<br>23. Continued implementation of the Zhongzheng Bridge Reconstruction Project.<br>24. Continued implementation of the Ramp Connection Project for the First Wanda Fruits and Vegetables Wholesale Market and the Fish Wholesale Market. |

| | | | |
|---|---|---|---|
| | | | 25. Continued implementation of the Demolition and Reconstruction Project for the Superstructure of the River Crossing Section of Minquan Bridge.<br>26. Continued implementation of the Pedestrian Skybridge Project Linking the Linear Park across Civic Boulevard.<br>27. Continued implementation of the Pedestrian Skybridge Project at MRT Jiannan Road Station.<br>28. Continued implementation of the FY 2025 Road and Bridge Engineering Planning and Design Project.<br>29. Continued implementation of the FY 2024-2025 Bridge and Culvert Safety Inspection Project.<br>30. Continued implementation of the FY 2025 Bridge and Culvert Improvement Project.<br>31. Continued implementation of the FY 2025 Road and Bridge Noise Improvement Project.<br>32. Continued implementation of the FY 2025 Taipei City Road and Bridge Construction and Improvement Project.<br>33. Continued implementation of the FY 2025 Anticorrosion Coating and Bridge Maintenance Beautification Project for Steel Structures.<br>34. Continued implementation of the Bicycle Bridge Construction Project across the Keelung River at the End of Xingzhong Road.<br>35. Continued implementation of the Preliminary Planning Project for Bridge Reconstruction in Taipei City.<br>36. Continued implementation of Technical Services for Commissioned Planning and Design of the External Bridge Construction Project for Shezidao.<br>37. Continued implementation of the Huanhe Expressway Sound Barrier Replacement Project.<br>38. Continued implementation of the Demolition and Widening Project for the Huanhe South Road Ramp beneath Zhongxing Bridge.<br>39. FY 2026 Road and Bridge Engineering Planning and Design Project.<br>40. FY 2026-2027 Bridge and Culvert Safety Inspection Project.<br>41. FY 2026 Bridge and Culvert Improvement Project.<br>42. FY 2026 Road and Bridge Noise Improvement Project.<br>43. FY 2026 Taipei City Road and Bridge Construction and Improvement Project.<br>44. FY 2026 Anticorrosion Coating and Bridge Maintenance Beautification Project for Steel Structures.<br>45. Pedestrian Scenic Bridge Project across the Jingmei River at Lane 44, Hexing Road.<br>46. New Pedestrian and Bicycle Scenic Bridge Project beside Wenhe Bridge. |

| | | | |
|---|---|---|---|
| Common duct fund | Common duct operations | Common duct operations | 1. Common duct operating fees.<br>2. The common duct management fee and overheads.<br>3. Taipei City Joint Pipeline Management and Monitoring System Software and Hardware Integration Project.<br>4. Construction of the common pipelines and wiring of the eastward extension of Xinyi Line and improvement of related roads and ancillary facilities.<br>5. Commissioned design technical service fee for the construction of related roads and ancillary facilities improvement works for the northern section of the Ring Line and the southern common pipelines and wiring.<br>6. Renovation project of the Smart Monitoring Center for the Zhongxiao East Road common utility duct.<br>7. Third comprehensive review and planning of the Taipei City common utility duct system. |
| Buildings and Equipment | Transportation and Conveyance Equipment | Transportation and Conveyance Equipment | Procurement and replacement of vehicles. |
| Compensation for land use | Compensation for public land | Compensation fee | Compensation for land used for public works, ground objects and other projects ( Preparation of compensation fees) |
| The first reserve fund | The first reserve fund | The first reserve fund | prepared in accordance with Article 22 of the Budget Act |
