※In case of typhoons and according to Central Personnel Administration’s typhoon day-off announcement, the |
|                               |                                |                                               |                |                  |                       |                 |                    |                 | There is one bathhouse for men and one for women. To maintain user comfort, the max. number of people allowed is 30. |
bathhouses shall be closed.

*In case of typhoons, even when the typhoon day-off standard may not be met, due to special conditions such as mountainous terrain, rainfall and traffic condition, which are deemed to significantly affect access safety, the bathhouses shall be closed by giving a half day notice. Also, for disasters such as earthquake, mudslide, or other irresistible factors where there is foreseeable danger to personal safety, an immediate closure
announcement shall be made. During typhoon season, visitors are advised to call in advance to enquire if the bathhouses are open or not.

※Due to disinfection operations, the Women public Bathhouse temporarily closed from Jun 25,2016 to Jun 27,2016.
