The online riddle event this year combines the relevant content of 2018 Administrative Transparency Award winner, Drugs and Cosmetics Network Mapping iMAP, enables the public comprehension towards the government's strategic actions while trying to solve the puzzles, provides the latest sanitary-inspection results, offers the timely food-safety information and thus embodies the government's administrative transparency measures.

Director Shen also demonstrated, the whole series of the online quiz is designed to provide the public an alternative opportunity experiencing the

festive ambiance besides lantern festival and family-gathering. Through brainstorming, at the same time, the online quiz spreads the knowledge of relevant terms of integrity and ethics and the zero-tolerance policy towards corruption and movements. Everyone is welcomed to participate.
