### 《Sincerity=0 Multi-Fabric Suit》

As the virus keeps mutating, the world becomes unpredictable. The design combines different fabrics and uses the silhouette of a traditional suit with the unpredictable styles of a shirt. The nature of a rigid upright suit put together with a supposedly opposing flexible shirt represents the possibility of different or even opposing characteristics, people, circumstances, ideologies coexisting together. We decided to choose a fabric that has a lot of circles or zeroes on it as it symbolizes our hope that there could be a day of +0 Covid-19 cases.
